Optimus EMR, Inc. Announces Plan to Deliver INTERACT™ 3.0 to Its Customers

IRVINE, California – Robert C. Davis, President/CEO of Optimus announced today that INTERACT™ 3.0 (Interventions to Reduce Acute Care Transfers) will be part of its upcoming fall release. “Customers attending the Optimus Information Exchange (OIE) in October will be able to see and hear how we embedded the Interact 3.0 tool in both preventing hospital readmissions and caring for residents with complex needs”.

Mr. Davis further stated “Optimus will take the INTERACT™ tools to a whole new level. As an embedded part of our Clinical Decision Support (“CDS”) module the Stop and Watch, SBar, and Care Paths are triggered and automated by data collected anywhere in the patient’s eChart. Resident risk levels are identified and alarms are triggered for residents with a potential for hospital readmission. The Optimus EMR system opens up communication and allows care givers to monitor and treat residents proactively”

The INTERACT™ program was created by Joseph G. Ouslander, MD with input from an interdisciplinary team based at Florida Atlantic University, as well as feedback from a variety of experts and long-term care professionals throughout the U.S. Educational and other resources on the INTERACT™ program can be found at <http://interact.fau.edu>.

About Optimus EMR, Inc.

Optimus EMR, Inc. is the long term care industry (LTPAC) leader in providing the most comprehensive Electronic Health Record (EHR), Point of Care documentation tools, “eCharting”, Electronic Medication and Treatment Administration Records (eMAR/eTAR) and a full function physician module. The addition of the fully integrated billing/financial system (“OBFS”) with all of its features makes the combination the industry leader in automation and sophistication. The system is designed to conform to all aspects and the intent of HIPAA and HITECH regulations and is CCHIT® certified for LTPAC and Skilled Nursing Facility.

The Optimus EMR System is a mature and time-tested true EHR Solution that has been fully operational in hundreds of facilities and over 35 states since 2001. For more information call The Company at (888) 242-9080, ext. 214 or visit the web site www.optimusemr.com
